                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   Sequence 7, Application US/10092246

Patent No. 6501314

GENERAL INFORMATION:
GENERAL INFORMATION:
GENERAL INFORMATION:
GENERAL INFORMATION:
APPLICANT: The Minister of National Defence, Government of Canada
APPLICANT: The Minister of National Defence, Government of Canada
APPLICANT: National Endemine Endemine Endemine APPLICANT: Negata, Lesite
APPLICANT: Negata, Lesite
TITLE OF INVENTION: Cloning, Expression, Sequencing, and Functional Enhancement of MC
TITLE OF INVENTION: ScrV Antibody Against Venzuelan Equine Encephalitis Virus (Vee)
FILE REFERENCE: NEL-0007
CURRENT FILING DATE: 2002-03-13
NUMBER OF SEQ ID NOS: 37
SOFTWARE: PatentIn Version 3.1
SEQ ID NO 7
ILENGHT: 777
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           199

Batent No. 6501314
GENERAL INFORMATION:
GENERAL INFORMATION:
GENERAL INFORMATION:
APPLICANT: The Minister of National Defence, Government of Canada
APPLICANT: Alvi, Azhar E
APPLICANT: Najas, Leslie
TITLE OF INVENTION: Cloning, Expression, Sequencing, and Functional Enhancement of MC
TITLE OF INVENTION: ScFv Antibody Against Venzuelan Equine Encephalitis Virus (Vee)
FILE REFERENCE: NEL-0007
CURRENT APPLICATION NUMBER: US/10/092,246
CURRENT FILING DATE: 2002-03-13
                                                                                                                                                                                                                         121
                                                                                                                                                                                                                                                                                                                                                                                                       241
